

Stability

„The OS4XBox is running 24/7 since years: stability at it's best!“

Simplicity

„It's been easy to integrate the OS4XBox in our running environment since it's absolutely configurable in every single bit.“

Connecting worlds

„The OS4XBox is our connection hub: it doesn't only support TCP/IP, but also ISDN for OFTP, facsimiles, mailboxes. Also old-fashioned serial connections are possible! Our administrators love it!“
